Subscription \$2.00

## Well Over Objective

Some applications still coming in.

VICTORY LOAN \$40,500  
OVER OBJECTIVE

Vulcan and district have done it again. 751 applications for \$340,500 have been received at the Loan office here and final figures are expected to be higher. Owing to V.E. day holidays last week disrupting the canvass, applications are being accepted up till Friday evening, May 18th. In view of the fact that our quota of \$300,000, was considerably higher than in any previous campaign, this attainment is a credit to all bond purchasers and the bond salesmen. Well done folks.

Canvassers' standings are as follows:

W. D. Allan and	
W. Brown	274 apps. \$107,950
C. H. Andrews	155 89,250
W. E. Howell	57 12,200
V. J. Bertrand	104 37,850
Ross Walker	70 31,000
Mrs. Annie Craig	36 15,300
From Banks	75 46,950
Total to date	751 340,500

Final figures will be given next week.

### "WAR" IN MINIATURE

Local boys in their early 'teens, and younger, have their own war games, and these occupy all their spare time. That they take them seriously is well illustrated by three instances which have happened recently.

A lady scolded one boy who was swearing furiously and generally acting up, telling him that no gentleman acted like that. The boy quite seriously replied: "Oh, but you don't understand. I'm not a gentleman, I'm a dirty Nazi general."

They soon found that their army needed a medical corps, so appointed one of the boys as medical officer and saved their pennies and nickels and bought a medical kit. (Well, there were band-aids, anyway.)

Ammunition ran low again and rocks were resorted to. As might be expected, a direct hit was scored in time—but just when they had a chance to use their medical corps, the lad's mother was down-town and they couldn't get in the house to get the kit. They got around that by declaring the victim dead, and to prove it wouldn't let him fight again for five whole minutes.

One of the boys didn't come home to dinner. As time went on, mother began to get worried and phoned the teacher to see if he had been kept in. The teacher said that he had left with the rest, but that she would make a check. Sure enough, she found him sitting on the steps of the school, crying his eyes out. When he was asked why he didn't go home to dinner, he replied: "I can't, I have to guard the school."

### \$2,000,000 HIGHWAY

#### FOR NORTHERN ALBERTA

Opening of a new northern highway is in prospect, something of particular interest to motorists, according to the Alberta Motor Assn. This is a 382-mile highway running from Grimshaw, north of Peace River, to Great Slave Lake. It has been estimated that the cost of construction would be more than \$2,000,000.

The federal government has announced that it is prepared to make an appropriation, to provide for the completion of the northern road, at the next session of parliament, probably in August.

The plan involves an agreement between the provincial and federal governments. Under this pact, the province would bear the cost of improving the highways from Peace River to Fort Vermilion. From Fort Vermilion to the northern boundary of the province, the dominion would bear two-thirds of the cost and the province the balance. For the rest of the highway which lies in the Northwest Territories, the dominion would carry the entire cost.

Along the route of this highway are the famous Alexandra Falls, which would prove a major attraction to motor tourists. The country also provides good fishing and big game hunting.

### SOFTBALL

A softball game between the Vulcan Aces and the Airmen will be played at the Vulcan airport on Sunday afternoon, May 20th at 3 p.m. The public is cordially invited to attend the game of the season.

## Annual Meeting of Reid Hill W. I.

The annual Mother's Day meeting of the Reid Hill W.I. was held at the home of Mrs. A. Sales on Thursday, May 10, with 16 members and 4 visitors present. Mrs. R. Fitzpatrick, the president, opened the meeting with the reading of The Creed and Flag Salute. She then called on the secretary, Mrs. J. McRoberts, for the minutes of the previous meeting, which were read and approved.

Mrs. Bowie reported on cards sent to the sick and correspondence consisted of letters of thanks. A special letter from Mrs. Hobbs, the handicraft convener, asked for articles made from flour sacks to be put on exhibit and entered as possible prize winners. "Consumer's News" articles were read by the secretary and after discussion on ways and means of making money, and also to create amusement, it was moved that an auction sale be held at the next meeting. All members considered it a fine idea to carry on with the Salvage Box, too.

Roll call was answered with approval. With the conclusion of the business session Mrs. Fitzpatrick called on appropriate verses for Mother's Day. Mrs. Ross Walker for a report on the conference held at Lethbridge, which was much enjoyed. A contest, "Famous Mothers", was tied for by Mrs. A. Fitzpatrick and Mrs. R. Walker and on a draw, won by Mrs. Walker. At this time a splendid paper "New Schools for Democracy" was given by Mrs. M. L. Todd, and presented many of the new requirements for the schools of today and tomorrow.

Toasts to the great-grandmothers, grandmothers and mothers were offered and responded to, after which prizes to the only great-grandmother present was presented to Mrs. Fitzpatrick Sr., to the oldest grandmother Mrs. Guy Walker; to the grandmother with the most grand-children, to Mrs. Pete Bowie; to the youngest grandmother, Mrs. Roy Fitzpatrick and to the youngest mother, Mrs. Del Thomas.

The tea raffle was won by Mrs. R. Walker. The next meeting will be held at the home of Mrs. R. Fitzpatrick on June 14. The meeting was adjourned after which a dainty lunch was served by the hostess, assisted by Mrs. F. B. Clark.

Roll call will be answered at the June meeting with "Something I Have Learned From Rationing".

### MILO

We regret to report the passing of the late John Lucas. He was a genial friendly soul and for many years served on the council of the old Municipal Dist. of Marquis.

Local boys who are home on leave are Milton Lucas and Raymond Fernley. The Victory Loan campaign is in full swing as the district attempts to obtain its quota of \$50,000. At time of writing some 22,000 has been purchased or about 44 per cent of the objective.

Mr. Norris Bertrand is home from Edmonton University for the summer months having completed his third year in medicine.

The Ladies' Aid of the Milo United Church were entertained at the home of Mrs. J. Dritz. An exceptionally large number of members and visitors were in attendance and a fine lunch was served by the hostess.

We were talking to a chap the other day who told us that he should have a further deduction on his income tax report on the grounds that he was supporting two wives. "But that's bigamy," we exclaimed. "Not in my case it isn't," he replied. "It's just a case of that young squirt of a son of mine that can't wait until he can find a home of his own."

### SUGAR RATION CUT

Sugar rations are being cut in half in Canada starting June 1 to extend to December 31. Instead of two pounds a month consumers will have only one pound a month. This, however, does not affect the coming sugar allotment of 20 pounds coupons. In September and November the allotment will be 2 pounds because of the home canning requirements.

A Newfoundland-based RCAF liberator sighted and captured the 6th German sub to surrender to Canadians.

### ANNOUNCEMENT

The engagement is announced between Ronald J. Marshall, RCAF, youngest son of Mr. and Mrs. John P. Marshall of Vulcan, and Mary Foulder, W.A.A.F., elder daughter of Mr. and Mrs. J. T. Foulder, Church Farm Podington, Wellingsborough, England.

EIGHTH ARMY ACROSS THE RIVER LAMONE  
The first obstacle outside Ravena the blown bridge over the River Unit. South African Engineers start to build a new bridge

### LETTER FROM INDIA

An interesting letter from Bob Saunders, stationed in India, was received by the Ladies' Auxiliary recently, which reads:

Dear Ladies:

I received your parcel on April 24, and was very pleased and grateful to receive such a delightful gift. It is indeed a very comforting thought to realize that the folks back home are thinking of us, although so many miles separate us.

In India we find almost everything different—customs, character, language and color. But it is all very interesting, indeed. You see so many things that one would never have believed could happen or exist. Such as thousands of professional beggars, who are blind or crippled, and most of them starving. The filth, religion, castes and many other mysterious things are the composition of India. My first ride in a rickshaw, pulled by a wiry native boy, who kept ringing a bell and methodically kept stride to the beat of it, was really quite a novelty.

It's all very interesting and queer, but there is nothing like good old Canada. Believe me I am not homesick—it's the sun that's got me again (ha ha). Plenty of sun; in fact I sometimes think it is all over here. I hope Vulcan isn't in a day-time blackout.

Well, I must come to a close and I again extend many thanks to the Ladies' Auxiliary.

Hoping you are all well and happy.

With best wishes,

Bob Saunders.

### EASTWAY

Mr. A. E. Sparling spent several days in Calgary last week.

A number from this district motored to Milo on Monday night, May 7th, to attend the dance which was put on to celebrate the victory announced that day. Everyone was rejoicing over the good news. Some also attended the parade and the addresses given by some of the local men and a returned man who had served with his Majesty's forces in Italy. Milo certainly deserves much credit for the entertainment which was made possible with only a few hours' notice.

The next day being V-E Day, many again ventured out to attend the celebration in Vulcan. The address given by Mayor W. D. Allan, K.T. Norris, E.G. Hansell and F.L. Cannon, of the RCAF, were much enjoyed by all. Sympathy was expressed for families who had lost loved ones.

Lac Webber is home on leave from Rivers, Manitoba, where he was recalled to port.

Mrs. P. Goldthorpe was called to High River late Wednesday owing to the illness of her father who is a patient in the High River hospital.

Mrs. D. McColeman and son have moved to Black Diamond where she will join her husband.

Mr. and Mrs. Pat Laughlin and son Mrs. G. Goche and son, Harold Hellevang, Mr. and Mrs. F. M. Wynn and son, Mr. Salter and Mr. P. Goche all motored to the home of Mr. and Mrs. Ralph McKen at Carseland on Sunday.

Mrs. George Robinson returned to Loneview with her infant son, after having spent some time in the Vulcan hospital and at the home of Mr. and Mrs. R. Shatto.

H. Goldthorpe and W. Brown left for Breton on Sunday.

The federal government will advance loans to some of the Halifax merchants for immediate financial requirements for replenishing stocks.

## Wedding Bells

### O'REILLY - HAGG

A very pretty wedding of much interest here took place on Friday, May 4th at 7:30 p.m. in the Central United Church, Calgary, when Laura Ellen, only daughter of Mr. and Mrs. Otto Hagg of Vulcan, became the bride of Mr. James J. O'Reilly, of Port Hammond, B.C., Rev. C. A. Lawson, officiating.

The bride, given in marriage by her father, looked charming in a floor length gown of white sheer, with a veil enthralling. Her only ornament was a necklace, a gift from the groom.

Her bridesmaid, Miss M. McDougall, Clampton, was attired in a pale pink evening gown and carried a bouquet of variegated carnations.

The groom was attended by the bride's brother, Mr. Howard Hagg of Vulcan. Ushers were Mr. Delfor Dyck, Calgary, and Mr. Wilbert Hayden, High River.

A reception for immediate relatives was held in the Avenue Grill banquet room. The bride's table was centred with a beautifully decorated three-tiered wedding cake and bouquets of snapdragons, which made a very colorful arrangement.

The following morning the bride couple left by train for a honeymoon at Vancouver, B.C.

For travelling the bride wore a navy blue tailored suit with white and navy accessories and a powder blue topcoat.

The groom will return to his former station at Moncton, N.B.

### NELSON-WHITE

Okotoks United Church was the scene of a pretty wedding on May 2, at 7 in the evening when Joyce Roberts daughter of Mrs. Robert White and the late Mr. R. White of Okotoks became the bride of Mr. Robert Nelson son of Mrs. S. Nelson and the late Mr. J. O. Nelson of Herronton. Ferns adorned the altar and white ribbons marked the guest pews.

The bridal party entered the church to the strains of wedding music played by Miss Leona Buxter, organist. The bride who was given in marriage by Mr. Reid of Black Diamond wore a dressmaker suit of blue and carried a bouquet of red roses. Her only ornament was an heirloom necklace a gift of the groom. Her sister Miss Jean White as bridesmaid wore a suit corresponding in shade with the bride's and wore a corsage of pink roses. Mr. Mack McElroy of Calgary was groomsmen and ushers were Leonard Sparrow and Frank Anderson of Okotoks.

The service was performed by Rev. F. Samis and during the signing of the register Miss Evelyn Hanson sang "At Dawning".

Following the marriage a reception was held at the home of the bride's mother and there fifty guests were entertained. The table was decorated with white tapers and a tiered wedding cake. The toast to the bride was proposed by Rev. Samis with the groom making a suitable response.

Later the young couple left for a short honeymoon in Calgary and Bragg Creek and have since taken up residence on the farm east of Herronton.

### BUSINESS CHANGE

Another Vulcan business change is announced this week by Mr. Gilbert Koshler who has sold his jewellery business to Mr. V. H. Sagar, recently of Calgary, effective June 1st. Mr. and Mrs. Sagar are expected to take up residence here about the end of May.

## Regular Meeting Of Town Council

### MAYVIEW NEWS

Mr. J. R. Stein and daughter Melba are in Edmonton, where the latter is undergoing medical treatment. The community extends best wishes for a speedy recovery.

Friends of Mr. J. W. Gerding Sr. will be sorry to learn that he is a patient in the Holy Cross Hospital in Calgary.

A meeting of the Sunshine Social Club was held at the home of Mrs. Geo. Fulton on May 3, with a large attendance. Mrs. E. Plourd, vice-president, was in the chair. The meeting opened with a sing-song, Mrs. E. Richardson being the accompanist. Mr. Bill Sharp, Mrs. A. Knive, Mrs. A. Jacobson and Mrs. E. Rushfeldt were elected as a committee to sponsor parties for local boys returning from overseas.

Mrs. H. Graham and Mrs. L. Bateman kindly volunteered to take over the hospital visitors fund in the absence of Miss M. Stein. Roll call was answered with names of favorite spring flowers.

Two new members were welcomed into the club.

The raffle was won by Mrs. E. Richardson. A delicious lunch was served by the hostess, assisted by Mrs. A. Jacobson and Miss Arlene Rushfeldt.

The next meeting will be held at the home of Mrs. J. Gerding Jr. on June 7.

Mrs. Bill Hanchuk of Calgary is visiting in the district.

Miss Marjorie Corner and Miss Nora Richardson were visitors at their homes over the week-end.

## Thigh Hill W. I. Hear Lethbridge Conference Report

The regular meeting of the Thigh Hill W.I. was held at the home of Mrs. O. B. Roe, on Thursday, May 3. Mrs. Roe, the president, was in the chair and the meeting was opened in the usual manner with the singing of "O Canada", The Creed, and Salute to the Flag. There were 11 members and 7 visitors present, and roll call was answered with a verse for Mother's Day. Minutes of the last meeting were read and approved, and the report on the sales that were held previous to the meeting were given. Mrs. L. G. Clifford gave a grand report on the conference held in Lethbridge, it being the 25th annual conference. Mrs. W. Myers gave a brief report of the Wartime Prices and Trade Board. The ladies particularly enjoyed a short talk by Gordon Myers and Orville Roe, both home on leave from the RCN. The boys told of some of the interesting places, such as Greece, Egypt, North Africa and Italy they had seen, and of the people and conditions of these countries. Later an interesting demonstration on millinery, given by Mrs. H. Douglass, proved highly instructive and informative. The June meeting will be held at the home of Mrs. P. Myers on June 7, when it is hoped all members will be in attendance. A delicious lunch was served by the hostess.

## BERRYWATER

Mrs. W. Oldfield was a Calgary visitor over the week-end.

Mr. Ralph Nichol, of Springbank, is in the district to resume farming operations.

Mr. Neil McDonald, student minister from Nova Scotia, held his first service at Berrywater last Sunday, with a fair turnout of the congregation. There will be services in the future each Sunday at 8 p.m.

Mr. Roy McIntyre was a weekend visitor to Calgary.

Paratrooper J. Palmer, of Camp Shilo, is spending a furlough with his brother and sister-in-law, Mr. and Mrs. Louis Palmer.

Elmer Selborg, of Vulcan, spent Sunday at the R. Adam home.

Mrs. H. C. Douglass was a Carmanray visitor on Friday last.

### LOCALS

Mrs. Bob Bowie was a Sunday visitor in town.

Word was received over the week-end by Mr. and Mrs. Ed Hanson, of Calgary, formerly of the Arrowwood and Vulcan districts, of the safe arrival in England of their son Lionel Stewart, who has been a prisoner-of-war in Germany for nearly two years. Relatives of Lloyd Peterson of the Milo district also received a cable on Saturday informing them that he had been released after four years and was in England. Both boys were with the RCAF and friends here rejoice with their families in their release.

Mr. and Mrs. A. Ferngren of Calgary spent Sunday at the home of their son-in-law and daughter, Mr. and Mrs. Charlie Northcott.

## Rehabilitation, Safe Driving Campaign, Decorations for Streets, Cleanup, Building Permits, Water System.

The formation of a local rehabilitation committee was the subject of much discussion following the receipt of a letter from J. Sutton, of the Dept. of Veterans' Affairs, who is provincial superintendent of rehabilitation. A meeting with Mr. Sutton as speaker will endeavour to be arranged for Thursday evening, June 7, at which time representatives from all lodges, the Legion, and as many of the citizens as possible will be asked to attend. Such a committee would have a great deal to do in connection with the establishment of returning veterans and the importance of public interest, and an energetic committee cannot be emphasized too strongly.

That the lives of children were being endangered by speedy and reckless driving on the town streets resulted in the council issuing instructions that all motorists found driving over twenty miles per hour on the streets of Vulcan, or in any other way constituting reckless driving, be prosecuted to the full extent of the law. Motorists, please note.

Several building permits of a minor nature were granted.

The question of garbage and ash collection brought up a long discussion with various proposals being made. It was decided to do everything possible to have the town cleanup completed before the end of May, and further discussion of the topic will be made at the next meeting.

It was decided to get some street decorations to be used on all public holidays and inquiries are to be made immediately as to what is available along that line.

In order to provide ventilation, windows will be put in both sides of the town office.

In future town employees will be paid once monthly, instead of twice monthly.

Councillor Chas. Northcott was appointed Deputy Reeve for the next three months.

A letter from the Soldiers' and Airmen's Christian Association was received thanking the council for the privileges and co-operation given them and to Rev. Ruark during the time they were in Vulcan.

The council are making full inquiries into the question of waterworks and sewage for the town, and have already had a geologist and engineer here. At present tests are being made of water pressure in the wells, and a report is expected for the next meeting.

Reports of work done by the Foothills Health Unit and other routine matters occupied the remainder of the meeting.

Editor's Note—These council meetings are quite interesting to attend. We also find that any suggestions made at the meetings, or by letter, receive sympathetic hearings, and if warranted, prompt action. The council would welcome further interest by local taxpayers.

### SOCIAL CREDIT NOMINEE

E. G. HANSELL

A very enthusiastic and well conducted meeting of the Social Credit Party was held at Macleod, Wednesday, May 9. About 200 persons were in attendance, 160 being delegates. Rev. E. G. Hansell, of Vulcan, was the unanimous choice as Social Credit standard-bearer to contest the Federal election in the Macleod riding. Mr. Hartley acted as chairman of the meeting with Mrs. Russell as secretary.

All the necessary funds for the campaign are voluntarily subscribed and a total of \$250 has been collected to date.

Mr. Hansell concluded the meeting with a short talk on the work done in Ottawa and the plans of the party should he be elected.

## John Bracken — The Man

John Bracken, the son of a farmer Ephraim Bracken and his wife, Alberta, was born in a log cabin in Ellisville, Leeds County, Ontario, on the 22nd of June, 1888.

Here, briefly chronicled, are the main events in the life of John Bracken:

- 1898 - Student at Brockville Collegiate, Ontario.
- 1902-5 Student at the Ontario Agricultural College, Guelph. He won four scholarships, the Governor-General's Medal, was top honours student and class medalist. Here, too, he met Alice Wylie Bruce.
- 1906 - Young Bracken went to Winnipeg as representative of the Seeds Branch of the Dominion Department of Agriculture.
- 1907 - In the neighbouring Province of Saskatchewan, John Bracken became Superintendent of Fairs and Farmers' Institutes and Secretary of the Provincial Livestock Association.
- 1910 - John Bracken was appointed Professor of Field Husbandry at the new University of Saskatchewan. He took the first train to Guelph, Ontario, married Alice Wylie Bruce. Four sons were born—three of whom are now on Active Service with the Navy, Army and Air Force.
- 1920 - Already the author of two books on agriculture, John Bracken became President of the Manitoba Agricultural College.
- 1922 - John Bracken accepted the leadership of the Progressive Farmer Government, was sworn in as Prime Minister of Manitoba.
- Now began the political life of the most continuously successful political leader the Empire has produced in this century. Since that day—from 1922 to 1942—John Bracken has never been defeated.
- 1932 - The Liberals joined John Bracken's farmer government.
- 1940 - All the other political parties, including the C.C.F. and Social Creditors, threw in their fortunes with a great leader forming a wartime Coalition Manitoba government.
- 1942 - The year of John Bracken's great decision John Bracken, the Progressive, accepted the national leadership of a great resurgent people's party—The Progressive Conservatives.

## Pertinent Topics

Discussed by H. C.

Strive as they may to avoid it, the Germans and Japs must now be convinced they are not master races. That absurd notion was held by the Japs even more firmly than it was by the Germans. Each thought itself the master race, but neither was foolish enough to think the other was, and one wonders why each could be shrewd about this when it was so silly about that. Neither asked for the "gift" of seeing itself as others see it, but who does? If either had any sense of humor it would have seen the absurdity of its own pretensions as clearly as it did the absurdity of the other's pretensions.

For many generations they have been preening themselves on their superiority and preparing to show it to the world by military exploits and no one underestimates their achievements though these do not compare with those of two democracies untutored and unpractised in war—amateurs against professionals. Could either one of the master races have landed millions of men and thousands of tanks and guns on hostile shores from wharves they had ferried across a sea, or over the Rhine on bridges they had fabricated and flung across in a few days under enemy fire? Where would they be if they had to convey their forces and material thousands of miles as the western allies have to do? Yet neither of these two has any delusion of superiority or any desire for mastery, particularly in the arts of war.

Purblind to its own defects it is amazing with what clear sight each of the Axis powers saw the imperfections of the others. Hitler had no contemptuous opinion of Mussolini as Mussolini had of him, yet neither stopped a moment to wonder whether he might not be wrong in his own appraisal of himself. The Italians had no use for the Germans and the Germans had only contempt for the Italians, but the latter had no illusions of Italian power or of their Duce's grandeur. There was a hollow, metallic sound even in the cheers that reached him in the balcony from his claqueurs down below.

How times have changed! When the RAF started its raids on Berlin, Dr. Goebbels used to take foreign correspondents out after each raid to show them how little damage was done. Lately when it was worth seeing there were no foreign correspondents there and now when there are he is not there to personally conduct them.

The market is in such condition that Von Ribbentrop would be well advised to sell his champagne for whatever it will bring. Pretty decent, wasn't it, of the Germans in Holland to allow the enemy to drop food without molestation to the Dutch they had robbed to the verge of starvation?

De mortuis nil nisi bonum, is a maxim which freely translated, challenges one to say a good word for Hitler and Mussolini or else keep one's mouth shut. One has no option but to discard the latter as the subject of an obituary but one can observe the maxim and still write of the former (if he is really dead) for he warned his people that he was going to lie to them—told them in fact that it was surprising what lies he would have to tell people to keep them in line and make them do his bidding. There is something to be said for a liar who advertises in advance he is going to lie. Thus endeth Hitler's obituary.

"When all the bandishments of life are gone  
The coward slinks to death; the brave live on."

German willingness to surrender to Anglo-Americans was prompted by fear of reprisals for what they had done to Russia, but they would have done the same to Britain, the United States and Canada if they had the chance.

Dr. Goebbels once told Berliners they had the highest standard of living in the continent. They are making another record now in their standard of dying. It is a low standard in one way and high in another.

Because he did not start it himself there is a general despondency to believe the report that Hitler is dead.

Those Italian partisans who killed Mussolini and seventeen other Fascist leaders and hung them by the heels in a garage

## That Night of The Big Blow

People in Dinton district have been laughing over the experiences that have been told and retold about the night of the Big Blow (May 5). Things that weren't funny at the time are now beginning to take on a tinge of humor. Some of the young 'teen agers who were working on tractors in the middle of some of the big fields didn't get home till after midnight. When the black-out descended with its awful suddenness about 9 p.m., the boys thought they could hit straight for home, so they left the tractors, lost their bearings and wandered round and round like Lucy Gray. Some checked in finally under their own steam pretty well exhausted, and black as nigger babies. Others were located by seeking families.

In one exasperating case the lost one could see the lights of the car circling round searching, but he couldn't make himself heard against the wind, and the car kept moving on before he could catch up.

There were a number of cases in which the man in the field ran right through a fence that was completely hidden from view. But at any rate the fences did serve as some sort of guide.

One field was most erratically seeded when the farmer wove an irregular pattern all over a half section. When the blackness struck he was heading south for the fence which he could follow to get to the buildings. He thought he would stay with the tractor and head straight for the fence meanwhile tripping his seeder. But he drove on and on and on and never did reach the fence. Moreover he suddenly realized that the wind which had been at his back was now blowing right at him. So he made a prodigious half-circle swing of the tractor and got headed south again. He did reach the fence which was his goal, but then discovered that he hadn't tripped the seeder after all, and he had been seeding all over the field in his rambling peregrinations.

Then there was the lady who had the noble thought of going out and rescuing her menfolk with a flash light. Just then a window upstairs blew in and the ensuing dust took the men right off her mind.

People returning home from towns and villages round about had memorable experiences. At the best they had to pull off to the side and wait till the worst was over, then crawl slowly home trusting to luck. But many cars were noticed along the trail next morning. The storm had been too much for them. Saturday night was fully observed as bath night.

yard exceeded their instructions. They certainly get everything upside down, but not wrong six-up. At any rate, the posture of things, as Mr. Churchill said, is better than it was this time five years ago, when the Duce was riding high, wide and handsome. Montreal kept celebrating Tom Connelly's end of the war even after it was declared premature which shows that people will finish a job if you give them the tools.

In three days Nemesis did more for future peace than San Francisco will in three months.

Give a moment's thought to highways in their relation to dictatorships. Mussolini built one in North Africa of which he was very proud but it served to lose Italy her Empire. Hitler built highways that were the pride of Germany and the envy of the world, but they came in handy for the destruction of himself, his cities and his army. Moscow and Stalingrad would probably have fallen to the enemy if the Russians had not been behind in this tale of highways good and their roadbuilding program. There is an elusive moral somewhere in bad.

Thoroughly overhauled 37: WHITE 1½ to 2 tons; 148 in. wheel base; new spare tires and new grain box. The ceiling price is \$1138.50 but for immediate sale will consider \$950.00 and accept beef type cattle in part payment. Ask for demonstration at Gilchrist Auction Mart or write direct to owner, W. H. Lockerbie, Dominion Bank Bldg. Calgary - Phone M7734

FOUND—New license plate, 2 miles north of airport. Owner may have same by paying for this ad.

**IN MEMORIAM**  
SPEER—In loving memory of Mr. Nathaniel Speer, who passed away two years ago. "The blow was great, the shock severe, We little thought his death so near. Only those who have lost can tell The sorrow of parting without farewell." Sadly missed by his family.

**CARD OF THANKS**  
I would like to thank all the people of Vulcan for their kindnesses shown me during my stay in the hospital. Mrs. Francis Maiden.

**CHURCH OF CHRIST**  
Alberta Bible College day will be held at the Church of Christ on Sunday, May 20th. Special speakers will be Mr. Wm. Weale and Mr. J. H. Deans who will speak concerning the college. Special musical numbers are being arranged. The entire morning offering will be given to the work of this Christian college.

Hours of services are: Bible school, 10.30, Lord's Supper 11.30; evening service 7.30. After service of Christian fellows' ip, 8.45. We invite you to come and worship with us.

**ANGELICAN CHURCH**  
Services will be held in the Anglican Church on Sunday, May 20, at 7.30 p.m., the Rev. Vaughn Birch officiating.

**UNITED CHURCH**  
Rev. E. G. Hansell will conduct both morning and evening services on Sunday, May 20. Morning service at 11 a.m. and evening service at 7.30. Sunday school will be at 12.15 p.m.

A cut in the sugar ration is likely to be made effective in Canada. United States has had a 25% cut. Indian representatives at San Francisco stated that India wanted independence but within the Commonwealth.

Members of Women's services who have been discharged are given the same opportunities as servicemen in vocational training.

The VIII Hays' office in United States has withheld the documentary film "Atrocities," depicting German treatment of prisoners. The Hays' office said it repeated too many gruesome scenes, but Mr. Spiro who produced the picture said he would show it in 12,000 independent theatres in U.S.A.

## NOTICE

IN THE ESTATE OF BEULAH ILEENE GOTHARD, late of Vulcan, Alberta, Married Woman, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above-named Beulah Ileene Gothard who died on the 25th December, 1944, are required to file with the undersigned Solicitor for the personal representative of the deceased by the 23rd June, 1945, a full statement duly verified of their claims and of any securities held by them and after that date the personal representative will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims so filed or which have been brought to his knowledge.

Dated this 10th May, 1945.  
HERBERT J. MABER,  
Vulcan, Alberta.

**EARLIEST HARBOR OPENING:** Captain S. W. Keay, O.B.E., a six-year veteran of the wartime Merchant Navy from Canadian Pacific Steamships and survivor of two sinkings, here receives the stick he won by bringing the Gatineau Park into Montreal on April 9, a full day earlier than navigation for ocean vessels ever had been opened before in that port. Watching Alexander Ferguson, port manager, National Harbors Board, make the presentation is Captain Edmund Aikman, assistant to the chairman of C.P.S.S., and himself a former winner of the stick. To Captain Keay's left is Chief Engineer T. M. Atkinson, M.B.E., of the Gatineau Park, another of the more than 6,000 Canadian Pacific sailors now serving the

Admiralty in the Battle of Supply. The decorations of Officer and Member in the Order of the British Empire won by the captain and chief engineer of the Gatineau Park are among 71 such awards and mentions in despatches on the C.P.S.S. honor roll for gallantry at sea. Captain Keay was serving in the 42,000-ton Empress of Britain and the Duchess of York when they were sent to the bottom, as two of 12 Canadian Pacific vessels lost by enemy action. On D-Day the winner of Montreal's "first-in" prize this year was a berthing officer at Southampton and prior to this he had brought the invasion troop carrier, Empire Lance, from the American west coast, where she was built, to her station for the assault on Normandy.

## Turner Valley Again in News

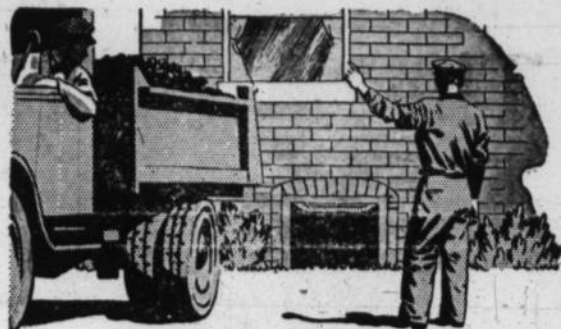

Recent progress in Turner Valley indicates that this oil field is again in the lead in public interest. One new well is turning into a good producer, and two more have completed drilling.

Pacific Petroleum is reported to be flowing at more than 100 barrels an hour, in the periods it is opened. It is expected that this will bring a conservation board allowable of more than 500 barrels daily, but the owners (Royallite and Pacific Petroleum) may keep it down to 350 barrels. The two owners may now drill No. 9.

Royallite 81, half a mile east and half a mile north of Jacif 8, has completed drilling at 7,348 feet, 451 feet in the Madison. The rig is being moved to the site of No. 82, a quarter of a mile east and a quarter south of 81. Both 81 and 82 are on the east edge of the central west flank.

Royallite Lowery 2 is reported 246 feet into the Madison, drilling at 8,348 feet. Canada's deepest well, Imperial Coalspur 1, is inching downward somewhere near the top of the Madison limestone. Thursday it was reported at 12,548 feet. Five or six feet a day's average depth it is making. The slow time, contrasted with many hundreds made in the early stages of other Alberta wells, is due almost entirely to the depth. Frequent changes of the bit are necessitated by the hard rock, and changing a bit means pulling out nearly two and a half miles of drill pipe, unscrewing it into sections and then putting it back.

A nation-wide check-up of brakes is being carried out by the R.C.M.P.

## BUY COAL NOW WHILE YOU CAN

This year there must be no "slack season" at Western mines. Every miner must be kept working if you are to be sure of your next winter's supply of coal.

Do not rely on being able to order coal later on. You might have to wait days, or even weeks, for delivery. Get your dealer to fill your bin as soon as possible.

DEPARTMENT OF MUNITIONS and SUPPLY  
Hon. C. D. Howe, Minister

WG 11

# At Last— Fair Play for the Farmer

"Canadian farmers have never had a fair return for their labour. They are forced to buy in a protected market at relatively high prices and to sell in a world market at generally low prices. What agriculture needs is not crutches to carry its disability; it needs to have the disability removed. This can only be accomplished by permanent measures and long range planning."

John Bracken

At last—a farmer fights for fair play for farmers! For more than twenty years John Bracken, the Farmer, was the undefeated leader of a Farmers' Party. To-day, as leader of a great, national, progressive party, he is determined that throughout the length and breadth of Canada there shall be a square deal for agriculture... fair play for the farmer... on a permanent basis!

Farmers have seldom had a fair share of the nation's income. Rarely do they receive a just reward for their endless labours. John Bracken means to stop, once and for all, the unfair discrimination against farmers, the unjust economic practices which make it impossible for farmers to obtain fair prices for the fruits of their labour.

"It is the responsibility of the nation," says the leader of the Progressive Conservative Party, "to see that this great inequity shall not be perpetuated... I know where I stand in the matter. Let me make that position clear. It is not fore-ordained that farmers shall work for less pay than anybody else; or have their children receive only one-quarter the chance of a secondary education or one-tenth of the chance of a university education that other children get; or see their wives forced into lives of toil, often 12 but sometimes 14 hours a day—Sundays and holidays included. The trouble is that no one with the necessary authority has determined to correct the basic economic ills of Agriculture."

To-day, John Bracken, the Farmer, seeks the necessary authority to put into immediate operation the far-reaching

Progressive Conservative policies that will permanently ensure fair play for the farmer. Here are just some of the points in the Progressive Conservative plan for the definite, continuous and permanent protection of farmers against income collapse and wide extremes of income fluctuation:

The Farmer shall be guaranteed a proportionate share of the nation's income.

A permanent policy for forward contract prices shall be guaranteed to farmers—by law.

The prices guaranteed will be calculated by a non-political council, and will be based on the farmer's proportionate share of the national income. These prices will be announced before the production seasons begin.

This policy will increase present average farm income by not less than twenty per cent.

It takes a farmer to understand farmers' problems. Only a farmer knows the full economic injustice from which farmers suffer. To-day, John Bracken is fighting for fair play for every farmer. The leader of the Progressive Conservatives is determined to bring security and prosperity to farmers permanently. Join in the fight. Help him to win his life-long struggle to give Agriculture a place in Canada's prosperity, not for a day—but for all time to come.

A Farmer fights for you... He needs your help.

## Former Milo Residents See Lisbon and Spain

(From the High River Times)  
Chester and Dolena Burk, Write Impressions From Spain, as They Journey as Missionaries To Africa

Friends of Chester and Dolena Burk will be interested in a most interesting letter received by William Burk. Chester and Dolena have finished their training at three hills and at Philadelphia and are on their way to Africa as missionaries and wrote the following letter from Lisbon, Portugal:

"Believe it or not (and I find it hard to do so) we are in Lisbon, Portugal. We crossed on a small Portuguese boat called the 'Jean Belo.' It steamed away from the docks at Phila. on Jan. 7th and we landed in Lisbon on the 24th making in all 18 days at sea with one day's stopover at one of the islands in the Azores." (Here follows an intimate description of the passengers' reaction to seasickness and oily Portuguese food). "We find Lisbon to be a strange, extremely interesting place, a place of many contrasts, from abject poverty to extreme riches, from exquisite beauty of architecture to scenes of drab ugliness, from rocky, unproductive hills where a goat would starve to death, to verdant fertile fields, from grey, clammy fog to dazzling sunshine, from narrow, dark, smelly winding streets to broad, modern thoroughfares, from old dank, musty, yet strangely beautiful castles where kings ruled in majesty or died in imprisonment that were built centuries ago by the Moors, to the most modern up-to-date apartment houses and from the oldest to the newest forms of transportation.

"It is a real education to take a walk through the city. The people seem to walk out on the street as much as on the sidewalk, usually because the sidewalk is too narrow to hold the crowds, but sometimes you see them walking down the streets even when the sidewalks are empty. How they get away with it is more than I can see, because the taxi drivers (and their number is legion) never seem to use their brakes, they just tramp on the horn. The people are as quick as cats from long practice. You just get out of the way or it is too bad. I heard Dolena remark the other day that there are just two kinds of people here, the quick and the dead. The streets are jammed with every conceivable kind of conveyance, little grey shuffling donkeys with huge protruding loads on their backs, huge lumbering oxen with spreading horns that would put a Texan steer to shame, mules and horses of all description. I saw a poor mule by the help of a good in the hands of a huge Portuguese endeavoring to pull a huge two-wheel cart up a hill. He couldn't make it on a straight pull, but by tacking back and forth like a sailboat going against the wind, and with the help of two men rolling on the wheels he finally wended his weary way to the top. It is most surprising the loads the women carry on their heads of almost anything although it is usually fish or oranges. I was down at the docks the other day lost in a regular maze of noise, riot, color and odor and there I saw a woman with the help of two men swing a monstrous basket of fish onto her head. Her knees seemed to sag a little but she went swinging away, and

load didn't seem to bother her a bit. Most of these carriers go barefoot and travel at a running walk.

"It is supposed to be winter here and indeed it is cold in the houses because they are unheated, but it doesn't seem much like winter outside. Many of the trees are bare and the vineyards look like patches of old crooked, lifeless snags but the fields are green and we've seen lemon and orange trees loaded with fruit. We get oranges and bananas all the time for dessert. We also tasted fresh pineapple at the Azores and was that a treat. We were surprised to find palm trees here as we did not expect to see that until we arrived in Africa. We went on a rightseeing tour the other day with a number of other missionaries who were on the boat coming over. We travelled by train about 40 miles into the country and were shown through two old castles that were built by the Moors and added to by the Portuguese. The rooms are full of old relics of bygone days. Massive furniture inlaid with the purest ivory, carved and decorated walls and dangling chandeliers that beggar description. To enter one we crossed a drawbridge and could imagine the courts ringing with the hollow echo of charging steeds and the clank and rattle of armour. We climbed among the ruins of one old fort perched precariously among the clouds on the very top of the mountain and looked down on a scene of wild grandeur, from parapets that once shielded the forms of archers who guarded what appeared to be an impenetrable fortress. Yet it fell in time to the onslaughts of the Portuguese. Well, to get back to earth again we have just had a French lesson from a Portuguese Christian, a Mr. Grancha and have had an opportunity to speak through an interpreter. We expect to sail soon for Africa on the same boat and will be writing you from there.—Love, Chester and Dolena."

## Liberal Action for Agriculture

Here are some of the practical steps which your Liberal government has taken for your benefit:

- 1 Guarantees of minimum prices for farm products.
- 2 Trade agreements with 20 countries.
- 3 Debt cancellation took \$225 millions debt off farmers' shoulders.
- 4 Took import duty and war exchange tax off farm equipment.
- 5 Saved apple industry by special marketing agreements.
- 6 Premiums paid on high grade cheese and grade A and B1 hogs.
- 7 Wheat Acreage Reduction and Prairie Farm Income payments made in 1944 to tide farmers over until market for wheat found.
- 8 Export contracts, operative until 1947, act as floor prices under farm products.
- 9 The above, with the Export Credits Insurance Act, will maintain farm incomes throughout post-war period.
- 10 Appointed (August 1944) Agricultural Prices Support Board to guarantee for post-war security to farmers' incomes.
- 11 To enable farmers to improve their working and living conditions, your Liberal Government has provided for intermediate and short term credits by amending the Bank Act and passing the Farm Improvement Loans Act, and further, has arranged that those wishing to build new homes or repair, extend or renovate their present homes can borrow the money under the National Housing Act.
- 12 Inaugurated annual farm production programmes through co-operation between the Department of Agriculture and farmers' organizations in every part of Canada.

## Under Liberal Government, Farm Incomes Rose Steadily

ONE out of every three men working in Canada is on the farm. Agriculture is the nation's most important industry. Since 1935, your Liberal Government has kept farming at the top of its list for action. Look at the panel (left).

Although 23% fewer men have been available for farm work, production has increased more than 40%—a splendid record of achievement for victory!

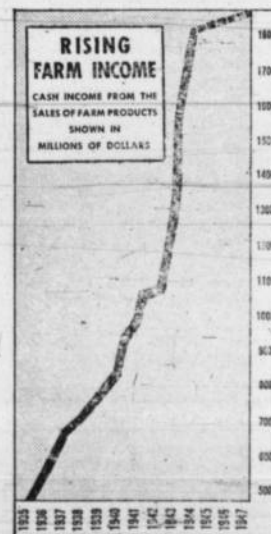

Even before the war, by securing foreign markets, taking off surpluses and stimulating home consumption, your Liberal Government assisted in raising total farm income by 45%.

During the war, the farmer for the first time

was put in the sound position of knowing exactly how he stood financially. He was protected against increases in his costs of production and guaranteed a market at fixed prices for a specified volume of produce. In 1939 farm income was \$772,000,000; in 1944 it was \$1,817,000,000, an increase of over a billion!

After the war, your Liberal Government has arranged to keep farm incomes up by floor prices on farm and fish products, and by foreign trade... to improve farm living conditions by Family Allowances, National Housing Plan, Farm Improvement Loans Act, and other social measures... and to secure agriculture's future by conservation of soil and other natural resources together with farsighted projects for irrigation, road and other improvements as soon as manpower and materials are available.

When you vote Liberal you act for your own and your family's continued welfare.

Cash income from the sale of farm products (millions of dollars)

**KEEP IT UP!**

BUILD A NEW SOCIAL ORDER

**VOTE LIBERAL**

PUBLISHED BY THE NATIONAL LIBERAL COMMITTEE

Harry Scott, one of the best known sport editors of the west, has resigned from the Morning Albertan with which he has been associated for 28 years. His resignation was observed with a banquet and presentation in his honor. Mr. Scott was alive to every type of sport news all over Alberta, and had a great descriptive gift, as well as being highly popular

amongst sport fans. Mussolini whose battered body hung in a public square near Milan for passersby to revile and mutilate is now buried in a Potters Field at Milan. In an Italian village fallen to American troops, the Americans found art treasures valued at 10 million which the Germans had looted from Rome and Florence.

## Gas Rationing Till After War

Oil Controller Cottrell has stated that gas rationing will continue till the end of the war, and the demand in the Pacific is tremendous. It may continue after the end of hostilities. The Allies have been waging two wars, one over 3000 miles and one 7000 miles from the main source of supply.

"With the exception of that which is required by Russia, all of the petroleum products produced in the Middle East go to the Indian Ocean for the activities in the South Pacific. The oil reserves in the Far East have been cut off to the Allies and all of the petroleum requirements for the Pacific war with Japan must move from this continent, the west coast of South America, and the Caribbean, 7,000 miles distant.

"It has been stated on more than one occasion that 1,000 planes from the British Isles over Germany consume 1,500,000 gallons in one raid.

The B.29 requires 9000 Imperial gallons to fill it. When it is reported that 100 or 300 or more B.29's have been over Tokyo, the amount of octane gasoline may be realized.

85% of Canadian requirements comes from the same pool as must supply the fighting in the air, forces and navies.

All these factors make it necessary to observe rationing till the war is completely over.

## WEDDING BELLS

HUMPHREY — WICKENS

A pretty May Day wedding took place at the home of Mr. and Mrs. J. A. Wickens of Calgary, when their youngest daughter, Harriet Pernice, became the bride of P/O Thomas Thompson Humphrey, R.C.A.F., son of Mr. and Mrs. Alec Humphrey of Gladys Ridge.

The bride, who was given in marriage by her father, was gowning in a simply cut gown of white sheer. A wreath of white blossoms held her floor-length veil in place and she carried a large bouquet of red and gold roses. A triple string of pearls, present of the groom, was her only ornament.

Mrs. R. E. Peterson, sister of the bride, wearing a gold dress and carrying red carnations was the matron of honor while Mr. Hugh Pushe of Medicine Hat, former crew mate of the groom, was best man. Mrs. Wm. Wickens played the wedding music. Rev. J. Wood officiated at the ceremony.

A delicious buffet luncheon was served to about 30 guests. The dining room was decorated with bouquets of spring flowers. Mrs. F. Walker of Calgary proposed the toast to the bride in the following poem written especially for the occasion:

To Bernice—"Baby of the family! Pride of all their hearts. Loving hands would hold you, but foiled by cupid's darts. Golden hair and beauty! Fashioned for a pet,

But surely all who know her are not likely to forget

The shining steel of spirit that ever battles wrong, That drinks deep of life's swift currents, and meets the day with song.

Dear one, may this your wedding day, mark the world's most longed for day

When Peace and mankind's birthright, o'er this blood soaked earth hold sway.

And life to you and Tommy be happy and serene. Beyond your expectation. Even beyond your dreams."

The groom responded with his thanks for her thoughtfulness in preparing so fitting and sincere a tribute to his bride.

For travelling the bride wore a wool dress and matching shortie coat of olive green with brown hat and accessories. Following a short honeymoon P/O and Mrs. Humphrey will travel east where the groom is expected to be stationed prior to his return overseas.

New oil discoveries are indicated at Calling Valley 28 miles southwest of Calgary near Black Diamond.

## From Canadian Farm Lands

In addition to supplying ample food for Canadian people, the farmers of this country have supplied great quantities of food to the people of the United Kingdom—wheat, pork, beef, dairy and poultry products and so on. In fact in November, 1943, Hon. Malcolm MacDonald, British high commissioner to Canada, stated: "Without the help of the Canadian farmers Britain would have lost the war two years ago." Since the war began Canadian farmers have supplied the British people with over three billion pounds of pork.

Furthermore, Canadian farmers have supplied food for Greece, Russia, South Africa, Bermuda, India, Egypt, France, Belgium, Greenland, Iceland, British West Indies and a number of other countries.

## Farm Loans For Improvements

Within the next three years \$250,000,000 will be loaned to Canadian farmers to improve their farms and homes. D. M. McRae, administrator of the Farm Improvement Loans Act, said in Calgary last week.

The money may be used for purchase of implements, livestock and electrification equipment, financing of fencing and drainage, construction of new homes or improvements to old ones addition to outbuildings, and purchase of agricultural equipment, such as milkers, etc.

The plan is expected to wipe out much of the expensive credit previously supplied by machine companies and finance institutions.

Loans up to \$3,000, are made through banks. Interest at 5 per cent, not compounded. Repayment time is from one to 10 years. The borrower must put up a third cash, if he borrows to purchase machinery, a quarter cash for other purchases, and 10 percent cash for home construction or improvement. On loans of less than \$2,000 10 per cent is taken on the purchased articles, and on those of more than \$2,000 for more than five years, a land mortgage is taken.

## Royal Owners

Although the daily press frequently reports that the Duke and Duchess of Windsor are planning to visit their E.P. ranch, no direct word to this effect has been received at the ranch, according to the foreman. He says he has heard nothing of any contemplated visit.

During the twenties and early thirties the E.P. was a great attraction for passing tourists, and for many old country people who made regular trips to the ranch. It carried a welcoming atmosphere and the picnic grounds were in constant use during the summer season.

But with the resignation of Prof. Carlyle as manager, the absence of any resident "host" made a difference. The abdication was another factor in diminishing interest. Much of the best stock has been sold off, and altogether the hospitable atmosphere of earlier days has almost vanished.

During the last visit to the ranch, Walter Little, son of Dr. and Mrs. Little and nephew of Prof. Carlyle, served the royal owners as chauffeur and was also acting manager. His death in action overseas last summer, removes another of the personalities linked with former visits of the royal party.

The venture in oil drilling at the E.P. ranch has not been productive according to all accounts, and will not have enhanced the appearance of this beautiful little spot.

If the Duke and Duchess are actually planning to come west, it would seem that considerable refurbishing would be in order. But there is no report of any activity in this line.

One million Bibles and two million new Testaments will be needed in post-war Europe says Dr. Armour.

As an aftermath of the Halifax Planting of seeds and all garden riot, on V-E day, 251 people have stuff is a reluctant business what been arrested, and a judicial in- with cold winds and snow flurries, quiry is being conducted. Four and there is little of the customary members of the R.C.N. have been in enjoyment in spring planting, sentenced to penitentiary for Trees are disgracefully slow, show terms ranging from 2 to 5 years, yet scarcely a shading of green as yet.

Everyone is very uncomfortable. Bond holders and Alberta government have reached agreement when the whole urge is to be on the refunding of the Alberta welding spade, hoe and rake. debt of 112 million.

## O. E. Wobick, C.C.F. Candidate

Has been successful in every undertaking

## The C.C.F.

in Saskatchewan

A Government Keeps Its Word

- Promises to the Farmer—KEPT**
    - Security on Land**—No mortgage company can evict a Saskatchewan farmer from the family home.
    - In Years of Crop Failure**. In years of crop failure no interest can be charged and the principal payment is legally postponed one year.
  - PROMISES TO LABOR—KEPT**
    - Collective Bargaining**—The C.C.F. government in Saskatchewan has set up the most advanced labor legislation on this continent. The C.C.F. government in Saskatchewan is the first government in Canada to negotiate collective bargaining agreements with its own employees.
    - Company Unions—Illegal**. The C.C.F. government has outlawed company unions.
    - Holidays with full pay**. The first C.C.F. government has passed a law compelling all employers to provide two weeks holiday with full pay for their workers. The federal Liberal party has forced the government to withhold this act until the war ends.
  - PROMISES TO OLD AGE PENSIONERS—KEPT**

Social welfare budget—\$6½ million.

    - Increased pensions**. The first C.C.F. government immediately increased 4,100 individual pensions. It has added \$3.00 per month to pensions of all pensioners. This year, pension increases equal more than \$800,000.
    - Pensions for Disabled Fathers**. The C.C.F. government of Saskatchewan is the first government to bring the pensionable age below 70 years of age. It has done this by means of a Father's Allowance.
    - Health Services**. Complete health services from surgery to false teeth is supplied to all pensioners. No insurance company will sell policies to these people at any price. At the pensionable age health services are needed in abundance. The C.C.F. government of Saskatchewan has dealt more generously with its pensioners than has any other government.
  - PROMISES OF HEALTH SERVICES—KEPT**

A health budget of \$3¼ million.

    - To All in Need**. The first C.C.F. government has brought health services first to those who need them most. Old Age Pensioners, the Blind, Widows on Mothers' Allowance, their children, and the mentally ill receive free medical, surgical, hospital, dental and medicinal supplies and services. The foundation for widespread provincial scheme is being laid. When the plan is complete free health services will be provided all people in Saskatchewan.
  - PROMISES TO THE MAN IN UNIFORM—KEPT**
    - A Department of Reconstruction** has been set up to assist veterans during rehabilitation.
    - Farm Aid to Veterans**. Premier Douglas has pledged that the Department of Reconstruction will give financial aid to veterans up to one-half the federal grant.
    - Factories in the West**. The first C.C.F. government has started a broad scheme to develop industries in the West. The Old Line Parties have encouraged eastern industries. To protect the west, a C.C.F. government will build factories in the West.
- PROMISES KEPT**—No government in Canadian history has fulfilled so much of its final program in 8 months of office.
- IN THE FEDERAL FIELD**—A C.C.F. Federal Government will move rapidly to fulfil its election platform.

## NOTICE

The Vulcan Flour Mill has changed ownership, effective May 15th. Farmers storing flour in the mill will receive the same attention and accommodation as before. They may get their flour as they need it.

## Brief Items of Local Interest

Friends of Mr. Bill Saunders will regret to learn that he has received word of the death of his father at the age of 80 years, at Toronto, on Monday, May 7. Mr. Saunders Sr. was listening to the news of the German capitulation and it is believed that the excitement of the good news brought on the stroke which resulted in his death.

Mrs. Ed Gilroy of Calgary is spending a couple of weeks in town.

Mr. and Mrs. C. Fleming and daughters Claire and Linda were Calgary visitors for the V-E Day celebrations.

The Vulcan Elks plan a celebration for July 1st, including Softball Tournament with good cash prizes, Children's races, Bicycle Races etc. etc.

There will be a Dance on Friday June 1st sponsored by the Elks; gross proceeds in aid of "Save The Children Fund"

Mr. Ford Fisher motored from his home at Frank on Saturday, and was accompanied on his return by his wife and baby daughter, who had spent the week with relatives here.

Dr. and Mrs. G. M. Carson have returned from a trip to Edmonton and Oliver. While in Edmonton the doctor attended a refresher course, and later the couple visited with their son, Dr. Donald Carson and his family at Oliver.

Friends of Mr. R. R. Martin will be sorry to learn he had the misfortune to severely cut his right hand when he slipped and fell with a milk bottle, last Thursday. The extent of the injuries has not been determined, but Mr. Martin will be unable to carry on his work for a considerable time. Meanwhile, bread and pastry of all kinds is being brought in from an outside point.

Mrs. W. A. Howes of Calgary is spending a holiday with friends here.

Miss Connie Hoskyn spent the week-end at her home in town.

Allan Walker, who has been attending the University of Alberta, has arrived to spend the summer at his home in the district.

Mrs. Carol Wright of Macleod was a week-end visitor at the home of her parents, Mr. and Mrs. Jack Marshall.

Joyce Denbigh of HMCS St. Hyacinthe, Que., is spending a furlough at her home here.

Mr. and Mrs. E. Carlson and family have taken up residence in the Percy Myers house.

Petty Officer and Mrs. Murray Fisher left on Monday morning to return to the east after a ten-day holiday spent with the former's parents, Mr. and Mrs. Allan Fisher. They will visit with Mrs. Fisher's parents at Gault, Ont., en route back to their station.

The Advocate joins the friends of Mr. Dave McAfee in extending sympathy to him in the recent death of his moth, in Edmonton. Mr. McAfee journeyed to the northern city for funeral rites at the week-end.

Mrs. Gertrude Martin is vacationing with her mother, Mrs. A. T. Martin, here.

Miss Mary Catherine Armev is spending the week with her parents, Mr. and Mrs. Ed Armev, before returning to the University of Alberta, where she will resume her studies in medicine.

Friends of Mr. Joe Gerding will be sorry to learn he is confined to a Calgary hospital, where he underwent an appendix operation last week.

Chief Petty Officer Orville (Pat) Roe of the RCN is spending a month's furlough at the home of his parents, Mr. and Mrs. O. B. Roe of the Reid Hill district.

Miss Frances Hawkins of Warner is at present visiting with her mother, Mrs. Maude Hawkins.

The Vulcan detachment of 2nd (R) Bn. Calgary Highlanders C.A. were the winners of the Efficiency Trophy for Southern Alberta, in recent tests on all phases of their training.

Final figures in the Red Cross Drive in this district shows that 178 donations were received totaling \$7,724.14. There were 68 fewer donations than last year, but over \$1300 was collected.

Innisfail has held a plebiscite on the question of putting waterworks and sewage in the town. Both were approved by an overwhelming majority. They will be proceeded with as soon as labor and materials are available.

In giving the list of canvassers in the recent Red Cross Drive the name of Father Ritter, treasurer, was inadvertently omitted. We regret this omission very much and extend our apologies to Father Ritter, who shared a great deal of the work in connection with the drive.

R. M. Patriquin,  
Campaign Manager,  
The Vulcan Red Cross.

Mr. and Mrs. W. E. Peters of Edmonton, who have been visiting at the home of Mr. and Mrs. W. M. Peters, have returned to their home.

Friends of Pte. Virgil Smith of Camp Borden will be interested to learn that he won a sterling silver medal with crossed rifles for being one of the three best shots in his company. He is expected home on spring leave soon.

Mr. and Mrs. Bill Scott and daughter Nita, of Vegreville, Alta., attended funeral services here of Mrs. Scott's mother, Mrs. McQueen, on Wednesday last.

## U.S. Meat Short Lax Control

Unfavorable comment has been made in United States, comparing the meat situation in Canada and that country, with the charge that Canada is living high while U. S. goes without.

But the United States News, regarded as authoritative, sets the matter in clearer light by the assertion that U.S. black marketing, poor distribution and less strict controls than in Canada are the real cause of difference.

In United States, says the authority, the average consumer will have about 130 lbs. of meat this year, which is 17 lbs. less than in 1944, but only 4 lbs. less than in 1939.

Of all foods, the Americans will average 1271 lbs. each year against 1230 in 1939.

In Canada each person will average 1099 lbs. of all foods compared with 1035 in 1939. The chief difference is more consumption of fruit and vegetables in United States.

Canada, may, however, institute meat rationing this summer. The greatest present need is for canned meat, particularly in the Pacific, amongst troops on the move and more remote parts of Europe. The canning of meat in Canada may be speeded up.

Every year the Christian Science Monitor receives an award for accuracy in world reporting for excellent editorials and for other features which place it in the top rank of newspapers the world over. Those who read the Monitor know how well deserved these perennial honors are. There is a reliability and a general grasp of affairs in the Christian Science Monitor which impresses itself upon readers.

## Ford Company Production

Wallace Campbell, president of Ford Motors has advised that resumption of passenger car production is not likely to happen this year. He said the major activity of the company in the current year, as present government demands would indicate, is continued production of military transport vehicles though in fewer numbers, and increased production of trucks for civilian use. Military requirements must still have precedence so long as hostilities continue on a large scale in Europe or the Pacific.

In his annual report Mr. Campbell stated that during the year 65,528 automotive units were shipped. Spare parts sales continued to represent a substantial portion of the total dollar sales volume. Of the \$43,342,966 spare parts sales, which figure was slightly in excess of the total volume of all sales in 1939, \$6,575,206 were for civilian requirements—the highest in the company's history.

The value of sales for essential civilian requirements represented 9 per cent of the total sales for the year, compared with 5.5 per cent in 1943. However, Mr. Campbell stated "prospects are that from now on an increasing proportion of total production will be for industrial and commercial uses." Since war began it was pointed out that Ford-Canada has supplied to the armed forces 380,000 motor vehicles, which together with related spare parts, were valued at more than \$650 millions.

Net profit for 1944, after taxes, was \$3,144,516.

The most nerve of a high level of employment in Canada has become generally recognized as a national responsibility and a primary objective of government policy. One of the most important requirements will be that of materially increasing Canada's foreign trade upon which employment in Canada so largely depends," said Mr. Campbell.

All revolvers or pistols must be re-registered by July 1, 1945, with the R.C.M.P. There is now no necessity for registering rifles and shotguns. No .22 rifles require registration.
